— Sunspot number

Years

Events

1789

Great French Revolution, precursor of the First Republic

1830

Second Revolution (July Revolution)

1848

Third revolution, birth of the Second Republic

1870

Birth of the Third Republic

1871

Uprising in Paris, "Paris Commune"

1946

Birth of the Fourth Republic

1958

Algiers crisis, birth of the Fifth Republic

1968

Mass protests, general strike

According to Alexander Chizhevsky, revolutions, riots, protests and mass movements are more frequent around cyclical maximums of solar activity, which can be measured by the number of sunspots on the sun surface
